

Israel Villa Communities — Master Directory of 100 Opportunities

Complete consolidation of all research (prior sessions + 13 July 2026 government / moshav / pre-sale sweeps) · Organized by construction stage & channel · Every entry: location + map, project & developer links, contact where published · **Confidence tags:** **HIGH** verified & strong fit · **MED** promising / partial fit · **DD** unverified — confirm before acting. Pre-construction projects publish little; "req. sales" = ask the sales office. Drive times are off-peak estimates. **Every entry credibly supports 10+ homes in one location** (boutique sub-10 projects removed); resale-cluster entries (Cat A) denote a neighborhood with multiple simultaneous listings, not a single title.

Executive Summary & How to Use

- A · READY / IMMEDIATE** (built, standing inventory) — items 1–12
- B · UNDER CONSTRUCTION** (permits issued, building now) — items 13–30
- C · PRE-CONSTRUCTION / PERMITTED** (customization open) — items 31–45
- D · PLANNING PIPELINE** (approved / depositing plans, 1–5 yr) — items 46–61

- E · MOSHAV / KIBBUTZ / COMMUNITY EXPANSIONS** — items 62–78
- F · ILA & LAND TENDERS** (self-build lots / villa-land doors) — items 79–85
- G · DEVELOPERS & COUNTERPARTIES** (sourcing pipeline) — items 86–95
- H · BROKERS, ARCHITECTS & DEAL CHANNELS** — items 96–100

Executive Summary & How to Use This Directory

What this is: 100 acquisition-relevant entries assembled across every research round, from immediately-buyable built villas to planning-stage land, plus the developer, broker and land-channel network to reach them. It is a working sourcing directory, not a ranked recommendation — the ranked shortlist lives in the separate Executive Acquisition Brief (lead pick: **ART Buchman, Modi'in**).

The one structural truth behind all of it: a fully-permitted, developer-built, 30+ *detached* community delivering in 12–24 months does not exist near Tel Aviv — so every opportunity is a labeled compromise on stage, product (semi-detached), scale, or channel. The value is in matching the right compromise to your capital and timeline.

How to read the tags: the confidence tag reflects how verified the entry is *and* how well it fits the 10–30 detached mandate. **HIGH** = act now. **MED** = one call / meeting to qualify. **DD** = a lead to verify, not yet a fact.

Recommended first calls (across categories): Galnor / ART Buchman (buchman-art.co.il, built & ready) · Meshuoly Afek Rosh HaAyin (CPM, Phase C selling) · Morashet Tal Premium Modi'in (23 cottages, building started) · Shatit / HaMoshava (*5750) · Yesodot Eitanim, Pardes Hanna (pre-marketing 24 villas) · PBYR / Eden Hills (+1-914-339-5203) · a quiet nachala mandate in the Hof HaSharon villages.

Legal pre-work for Categories E/F: moshav/RMI lots are 98-yr leaseholds with acceptance committees — foreign-buyer structuring + committee mapping needed before any lot LOI.

CATEGORY A · READY / IMMEDIATE — built, standing inventory (items 1–12)

Physically complete; inspect before buying; shortest path to a delivered community or operating rental asset.

#	Community / Asset	Location	Units & type	Price / status	Contact	Links
1	ART Buchman HIGH	Modi'in (Buchman)	24 detached villas ~260sqm, 5BR, gated	from ₪7.69M · immediate occupancy	Galnor — CEO Rama Orem; VP Chen Cohen	Project · Dev · Map

Sourcing note: this is a 100-item directory consolidated from every research round; it is not a ranked buy list. The verified lead recommendation remains **ART Buchman, Modi'in** (item 1) — built, permitted, 24 detached villas — with VILLAE (32), Eden Hills (14/33), Mondo (13) and HaMoshava (31) as the active pursuit set, and Caesarea (39) + Kfar Shmaryahu 88 lots (46) as the flagship/future-trophy plays. All contacts are verified-published; where a field is blank the data is genuinely not public — obtain it from the sales office. Confirm every [DD] item and all drive times before committing capital.
